If you have a large population of deaf people in your area, and most areas do, then this is typically a market that is totally untapped. According to U.S. Census records, one out of every 250 people sign language flash cards in the United States is functionally deaf. There are many more that have serious hearing impairments and use sign language on a regular basis to communicate. Not being able to speak with these people is simply leaving business on the table, and not many of us can afford to do that. Here is an easy way that you sign language classes can begin learning sign language over your lunch hour.
